EQUILISATOR BETTING

THE PROCEDURE FOR EQUILISATOR BETTING IS THIS:

Tickets are available with letters of the alphabet covering the number of horses starting in the race. The bettor cannot nominate the horse on which he wishes to bet, he must take the next lettered ticket or tickets available for sale.

At this point of time, the letter on the ticket is not related to a particular horse.

Prior to the race the horse number relating to the ticket letter will be announced.

All bettors must be 18 years or over.

PAYMENT OF DIVIDENDS

(All dividends declared for \$2)

Dividends only paid out to 1st place winners.

Holders of dividend bearing tickets must present them for payment of dividends immediately after each race, to the payout windows at the tote tent.

Dividend bearing tickets will be paid on Race Day only and no claim on tickets not collected on Race Day will be recognized.

LUNCH

A break of approximately 30 minutes will be announced over the public address system.

During the lunch break there will be a running race for children, and an adults' tug of war, so register your mixed team at the tote tent.
