

ECE Newsletter

Issue No. 1 | March 2024

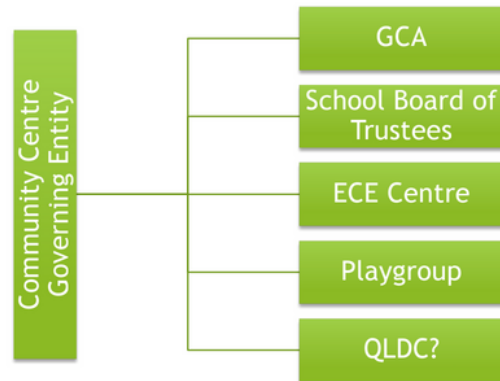

Welcome

This is the first official newsletter for the ECE development project. With this newsletter the Glenorchy Kids Collective aims to provide regular updates on the progress of the ECE Centre project.

One of the biggest items on the agenda for April is the potential combination of the ECE Centre project with renovations to the Glenorchy pool. This possibility is being explored because of significant logistical cross-over between the two facilities, a fact which came to light when in early meetings with the project architects. The Glenorchy Kids Collective wants your feedback – Do you support the combination of these two projects?

A project proposal overview is available on the Glenorchy community website, on the GKC Facebook page, or by emailing glenorchykidscollective@gmail.com. A vote on the proposal will take place at the GCA meeting on Thursday 4 April at 7:30pm. Anyone unable to attend the meeting is encouraged to cast their vote in the ballot box located at the petrol station.

Current Proposal - Outline

Out & About

We've hosted a community workshop and a playgroup member Q&A about the pool. We wanted to say a massive thanks to those that have participated or that have already shared their opinions with us at one of our local meetups or online surveys.

Latest Donation

The Glenorchy Kids Collective would like to extend a huge thank you to Anne & Stu Percy, Ngāi Tahu Farming, and the Greenstone Homestead for naming us to be the recipients of funds raised at a recent auction held by Colliers NZ. Thanks to their generous support, \$12,000 has been donated towards the ECE Centre project which makes an enormous impact in helping us to reach our overall fundraising goals. Ngā mihi!

Survey Results

In our recent survey regarding the ECE and the Glenorchy pool, so far, 55% of people are in support of the project and 25% are undecided or of no opinion. We also asked how people think the pool should be overseen and managed, and what other facilities people would like to see in a renovated pool:

What improvements would you want to see implemented in a renovation of the pool?!
