

MoA well-attended workshop led by Oliver Hart and Johnny Scott at the recent Sustainable Glenorchy Harvest Festival resulted in many attendees being interested in further discussion.

As a result, Sustainable Glenorchy Inc would like to invite all the community to come together for a shared meal and discussion around ways we can learn to become more resilient over time as a small community with regard to our food needs. We welcome those with knowledge and experience as well as those who would like to learn, and anticipate an evening of rich interaction resulting in the beginnings of a plan that will benefit us all.

We hope that this will be the first of several gatherings where we also face our water, communication, connectivity and other future-proofing needs as a small community.

Where: Glenorchy Community Hall

Date: Sunday 26 April

Time: 5pm (please bring food to contribute to a shared evening meal).

RSVP: Karen, by texting 022 499 4292 if you can
