

# THE FINAL MILE FUNDRAISER

## Glenorchy Trails Trust

Help the Glenorchy Trails Trust raise the remaining \$22,000 to complete the 1st km of the Queenstown-Greenstone trail link.

The Glenorchy Trails Trust is creating a series of Head of the Lake trails to support the "Shaping our Future" master plan. The Trails Trust is focused on creating a recreational trail linking Queenstown and the Greenstone Valley via the head of the lake communities. They have now raised \$67,000 for their first trail and need to raise the remaining \$22,000. Will you help us in this final milestone?

### Benefit Concert

Holly Arrowsmith was raised in the mountains of Southern New Zealand, and is a strong forerunner in New Zealand's current folk revivalist movement.

With sound comparisons drawn to Emmylou Harris, Joni Mitchell, Nick Drake and Gillian Welch, Holly delves into the earnest matters of life- wrapped in metaphors of nature and the soothing mountain landscapes that raised her.

At just 27 years old, Arrowsmith has toured both hemispheres with her powerful solo performance, and is known for her wry sense of humour and authentic stage presence.
