WHEN	Monday 1 December 6pm - 7:30pm
WHERE	The Rees Hotel
HOW	<u>Register via Catalyst's Humanitix Page</u> Koha to Wakatipu High School's Science Buskers Academy

We are in the midst of the second quantum revolution – anticipated to bring innovative commercial applications and new ways to address global societal challenges like climate change.

But also, significant risks to societal values – especially concerning digital security and privacy – and substantial national security implications.

Quantum physicist Prof David Hutchinson will discuss the physics, likely impacts and timelines of this new technology at our December 1 Catalyst Kōrero.
