

February 2026

First Funding Round for 2026

Community Groups who might be thinking of applying for funds from the Glenorchy Community Trust in the April round of grants should begin to consider the project and the steps needed to have the information available for the application at the end of March 2025. Funding is limited to a maximum of \$5000.00 for any one grant and groups that have received funding recently might have a lower priority than newer projects which have not previously been supported. All applications should be made through the trust website. If there are issues with the application process, please advise quickly so the software can be reset.

I am pleased to advise that the trust will receive its first dividend from the Business this year. In the past the trust has been funded by the generosity of Paul and Debbi Brainerd. They are navigating some health challenges at present, so it is good to see their vision becoming a reality. We thank them for their philanthropy for the past seven years with a total of \$140,000.00 shared in this community.

Any group wishing to discuss an application prior to submission should feel free to contact any member of the trust or me on 0274898822.

Nga mihi,

Paul Ferris

Chairman
